## PROFESSIONAL SUMMARY

---

Software Engineer with 3+ years of experience delivering high-impact web applications using React, TypeScript, and GraphQL. Adept at translating complex requirements into performant, accessible, and scalable UI solutions. Proven track record in Agile teams, optimizing performance, and building consistent, user-centric experiences across fintech and e-commerce domains.

## EDUCATION

---

<b>Post Graduation of Web Design and Development</b>	GPA: 3.52
Conestoga College	2018 - 2019
<b>Bachelor of Information Technology</b>	GPA: 3.23
Gujarat Technological University	2015 - 2018

## SKILLS

---

<b>Languages</b>	JavaScript, Typescript, HTML5, CSS3, Java, Python, C#, SQL
<b>Frontend</b>	ReactJS, Redux, NextJs, VueJS, React Native, Tailwind CSS, Material UI
<b>Backend</b>	Spring Boot, Node.js, GraphQL
<b>Testing/CI</b>	Jest, Selenium, Git, Jenkins, Docker
<b>Databases</b>	SQL, PostgreSQL, SQL Server
<b>Cloud &amp; DevOps</b>	AWS (EC2, S3, Lambda), CI/CD
<b>Tools</b>	GitHub, Jira, Postman

## EXPERIENCE

---

<b>Software Developer</b>	Sep 2022 - Present
HCL Tech Canada	(Remote) Vancouver, BC

- Delivered **high-performance front-end apps** with **React** and **Typescript**, reducing **page load time by 99 %** through code splitting and bundle optimization.
- Integrated **RESTful** and **GraphQL APIs** into React-based applications for a **leading global finance client**, ensuring **real-time data rendering** and **error resiliency**.
- Migrated **large-scale legacy systems** to a **modern, component-based architecture** using **Redux** and **Context API**, improving maintainability and scalability.
- Built **reusable UI components** and enforced **design consistency** across multiple product features and development teams.
- Collaborated with **product managers, QA, and design teams** in **Agile sprints**, delivering features on time with high test coverage.

<b>Web Developer</b>	March 2021 - Aug 2022
M & T Printing Group Ltd	Waterloo, ON

- Built scalable web applications using **React (front end)** and **Java with Spring Boot (back end)**, enhancing functionality and engagement on high-traffic platforms.
- Designed responsive interfaces with **React** and **Redux**, integrating seamlessly with **RESTful APIs** for dynamic data handling and efficient workflows.
- Boosted performance by 30 % through lazy loading, code splitting, and optimized data fetching; implemented **CI/CD pipelines** using **Jenkins** for 20% faster deployments.
- Managed and optimized **MySQL** database, focusing on schema design, query efficiency, and scalable data migrations.
